

Dear Neighbour,

As you know, the crime rate in our district is getting worse all the time. Many of us feel that we are no longer safe even in our own homes where we still run the risk of being burgled or attacked.

We would like to discuss with you the idea of starting up a Neighbourhood Support Group in our street. We hope to make our neighbourhood a place where we can all feel safe knowing that if such a crime does happen, help is only a signal away. Neighbourhood Support Groups have been operating with a lot of success in many areas. Police have recorded substantial drops in the level of crime in those areas and are prepared to do all they can to help more groups to establish themselves.

We hope that you can join us to discuss the idea. The meeting will be held at the home of
at
starting at If you are able to attend, we would appreciate if you could phone
at and let him/her know that you are/are not coming.

We hope that by starting a Neighbourhood Support Group in our area we will not only make our own neighbourhood a safer place to live in but we will also be able to get to know each other better and re-affirm the community spirit of days gone by.

We look forward to hearing from you.
